

Do what matters: Enhance your data security approach

Data Security Discovery Workshop

In today's increasingly complex world, protecting your key assets and data, maintaining compliance and addressing regulatory requirements is becoming increasingly important.

Avanade is offering a free half-day, interactive Data Security Discovery Workshop to help you identify gaps in your data security practices and provide recommendations to improve your data security posture. At the end of the workshop, you will get:

-  **Enhanced data visibility and security**
Understand what data you have and what needs to be secured. Define an approach to enable the secure handling of information.
-  **Regulatory compliance**
Understand and better map to industry-specific regulatory requirements.
-  **Data protection**
Improve data protection with encryption and access controls that enhance productivity. Identify how best to use data loss prevention systems.
-  **Better measurement and reporting**
Measure security and compliance implementation. Identify areas of non-compliance.

The streamlined workshop is structured into three parts:

Pre-workshop

Complete an assessment and send key information for review.

Workshop

Assesment of your organizations data security capability and requirements review.

Post-workshop

Receive a report with high-level findings and recommendations.

Why Avanade
